SUMMARY

Motivated IT graduate with hands-on experience in IoT projects and web development. Skilled in Python, HTML, MySQL, and NumPy, with strong problem-solving and teamwork abilities. Eager to learn and contribute to innovative projects in a dynamic environment.

CERTIFICATIONS AND LICENSES

Privacy and Security In Online Social Media on NPTEL.
AWS Cloud Practitioner.

Worked on an IoT prototype and received its patent.

PROJECTS

Project: Online Banking System

Developed an interactive console-based banking system using Python that allows users to create accounts, deposit and withdraw money, and check balances. Implemented data handling, validation, and simple file storage for account management. Focused on modular code structure and clean UI for better user experience

Smart Waste Segregation Dustbin using IoT

Developed an IoT-based smart dustbin capable of automatically detecting and segregating waste into recyclable and non-recyclable categories. Utilized sensors and microcontrollers to identify waste type, automate lid movement, and send real-time bin status to a cloud dashboard. The project aimed to promote efficient waste management and sustainability in smart city environments.

EDUCATION

2021 — 2025

Bachelor of Information Technology

Sharda University, Greater Noida, Uttar Pradesh

Relevant Coursework: Data Structures, Software Testing, Machine Learning, Web Development, Database Management ,Risk Management.
